### International Corporations

Many businesses operate fully or partly through Offshore as it is indispensable for any serious business. It provides multiple benefits like – gives a professional look, limits the personal liability of shareholders, managing multiple assets, asset protection, tax structuring & tax advantage and access to global banks & financing.

We also design and implement complex corporate structures for sophisticated investors and multinational corporations. We leverage international legal vehicles such as Corporations, LLCs, Foundations and Trusts to ensure the greatest asset protection, tax minimization and hassle-free ongoing operations.

We have a vast network of international banks, so we can be sure to find the right one for your company. Our banking service also includes introductions to payment processors as well, to better support our e-commerce clients.
